

Minds On Media

A Constructivist Approach to Multimedia Presentations and Social Media

Thursday, November 11, 2010 10:15AM - 2:30PM

ECOO Conference 2010 Sheraton Parkway North Hotel, Richmond Hill

What is 'Minds On Media'?

Imagine a room full of teachers who are experts in multimedia creation and social media. What could you learn from them?

Join [Peter Skillen](#) as he hosts the second year of this fabulous new ECOO event - a half-day BYOL (Bring Your Own Laptop) workshop with a variety of learning centres focusing on working/playing with media – both multimedia and social media.

What Will You Learn?

That is up to you! Visit one of the centres or visit them all! You can be an absolute beginner, or a 'techie' wanting to bump your skills up a notch!

You choose your 'entry point'. Build your own plan for the day or be led by one of our facilitators. Learn what you need to know to bring digital tools to your students this year!

You may want to learn all about animation. Or streaming media, HyperStudio, Frames, Adobe Premiere Elements, Google Earth, Google Tools, augmented reality, Web 2.0 tools, digital storytelling, etc. You get the idea. The facilitators at the centres will have the skills to support you. A broad range of media products and tools will be supported with awesome classroom projects as exemplars!

Who are Our Facilitators?

Minds On Media has a wealth of Ontario expertise ready to share, and to learn, with you.

- Mali Bickley & Jim Carleton - [iEARN-Canada](#) country coordinators and Adobe Youth Voices experts
- [Colin Jagoe](#) – You want ideas and skills in photography and PhotoShop Elements? See Colin!
- Lynda Kilpatrick – Lynda will treat you with excellent classroom projects using Google Earth & Street View
- [Kent Manning](#) - Filmschool 101 - Deconstructing and Constructing Public Service Announcements
- [Barbara McLaughlin](#) – If you haven't used VoiceThread, check out Barbara's ideas for deep educational uses!
- [Doug Peterson](#) – Learn with Ontario's celebrated educator - Childhood Community activity with Frames 4 and Google Earth
- Rod Rychliski – Ontario's expert teacher of HyperStudio and Google Earth
- Alex Shynkarenko – a respected secondary school student expert in augmented reality, Google SketchUp and Google Earth
- [TakingITGlobal](#) (TIG) & [TIGed](#) – “TakingITGlobal.org is the social network that connects you to the global issues that affect us all. TIGed is a community of globally-minded educators interested in empowering their students to think and act as world citizens, a collection of resources that facilitate the inclusion of global perspectives in the classroom, and a virtual classroom that allows students to use collaborative technology in order to connect with people from around the world and learn about global issues.”
- Danuta Woloszynowicz will bring to you awesome resources for streaming audio and video for your classroom.

Space is limited. Please register early! Lunch is included.

Note: We recommend these minimum laptop requirements: Windows XP or higher, Mac OS 10 or higher.
